SLIS Events News

NetSci 2006; May 16-20 and May 22-25, 2006

NetSci 2006
Indiana University, Bloomington
May 16-20 and May 22-25, 2006

The International Workshop and Conference on Network Science (NetSci 2006) will be held over a two week period at Indiana University, Bloomington, Indiana, during May 2006. The first week, the Workshop feature tutorials by 15 invited researchers from statistics, mathematics, physics, and the social and behavioral, and information sciences. It presents and supports experimental, theoretical and applied network science by educating the research community on standard network data, tools, and powerful computational resources.

The Conference comprises invited talks by social and behavioral scientists, information scientists, biologists, statistical physicists, mathematicians and statisticians - see list of confirmed speakers. The primary objective of the Workshop/Conference is to facilitate interactions between the many disciplines interested in and utilizing network science.

Participants should register by April 21, 2006. Thanks to NSF funding the registration fee for both weeks is $120 only. NSF and other funding will also provide support for about twenty graduate students to attend both weeks. SLIS students are invited to attend.

If you would like to present your research as a talk or poster at the conference, please submit an abstract by March 31, 2006. Abstract forms will be available via http://vw.indiana.edu/netsci06 (February 2006).

SLIS faculty member, Katy Börner is one of the organizers. You can email her with questions: katy@indiana.edu. In a November 2005 email interview, Dr. Börner gave insights to the goals of the conference.

NetSci 2006 Organizers
Albert-László Barabási, University of Notre Dame
Katy Börner, Indiana University
Noshir S. Contractor, University of Illinois at Urbana-Champaign & NCSA
Alessandro Vespignani, Indiana University
Stanley Wasserman, Indiana University

List of Confirmed Speakers (some are still pending)
Lada Adamic, Michigan University
Reka Albert, Pennsylvania State University
Kevin Boyack, Sandia National Lab
Ulrik Brandes, University of Konstanz
Carter Butts, University of California, Irvine
Jennifer Chayes, Microsoft
Mark Crovella, Boston University
Shlomo Havlin, Barilani University
Jeffrey Johnson, East Carolina University
James Moody, Ohio State University
Mark Newman, Michigan University
Pip Pattison, Melbourne University
Garry Robins, Melbourne University
Tom Snijders, Groningen University
Zoltan Toroczkai, Los Alamos Lab
